**Perspektive
International Human Rights Film Festival Nuremberg**

The *Nuremberg International Human Rights Film Festival* is Germany's oldest and biggest human rights film festival. It is the leading forum for outstanding feature films, documentaries and animated productions, which have human rights as their main focus. The festival features an international competition, which presents artistically exceptional human rights films, an international forum, an extensive supporting programme, exhibitions and international guests.

Andrea Kuhn, Director will give an introduction to Perspektive and a presentation on their **Open Eyes School Film Project**.

Document is the only dedicated international human rights documentary film festival in Scotland.

Held annually in October, Document is a grassroots initiative that aims to use film as an advocacy tool to raise the profile and promote debate of human rights & social issues across the globe.

Since Document 1 we have had very strong young people's programmes with great audiences. We are developing schools screenings at the festival and have recently visited Bellahouston Academy and Shawlands Academy, Bilingual Support Unit to screen work. Document 9 will take place at the CCA, Glasgow in October 2011.
