

Please complete the following checklist to allow us to get the sort right first time.

Name..... Phone.....  
Project centre to be billed.....

Are you sorting for DNA or RNA prep, Western Blots, or viable cells for culture?

Cell type and size \_\_\_\_\_ Are they fragile? Yes/No

The number of populations to be collected (maximum 4)

Type of collection (FACStube, 15ml tube, TC plate, slide, etc...)

If known – the approx % of cells to be sorted in each population.

How many samples will you bring to be sorted ?

The number of cells you ideally wish to collect for your experiment.

Temperature you wish collected cells maintained at.

Fluorochromes to be used/Fluorescent proteins expressed.

Do you require the sort to be Sterile Yes/No

What time would you like to start sorting \_\_\_\_\_
