

## **Clyde Waterfront boat trip**

**Wednesday 12 September, 2.15 – 4.30pm**

**(Departs Pride o the Clyde pontoon, across the road from  
Jury's Inn at foot of Jamaica Street)**

**Clyde Waterfront is the most comprehensive regeneration programme ever to be undertaken in Scotland: around £5.6bn is being invested in revitalising an eight-mile stretch of land along the banks of the River Clyde, from Glasgow city centre to the greenbelt estuary towns. It will deliver significant benefits to local communities and to the entire Scottish economy.**

Come on board, and see first-hand the regeneration taking place. Stuart Beith, Project Manager for Clyde Waterfront, will provide a commentary on the plans for revitalising the Clyde and its surrounding communities. See for yourself the state-of-the-art housing and office space, exciting retail opportunities, dynamic public spaces and public and privately funded leisure and environmental schemes which form part of this bold and sweeping vision. Hear about plans for improved transport links, including a series of new multi-use pedestrian bridges, and the positive impact these will have in bringing together communities once divided by their position at either side of the river.

The River Clyde was once Scotland's artery to the world. Now, with an impressive body of public and private sector groups committed to Clyde Waterfront's dynamic vision, the people, economy and culture of the Clyde will flourish once again, setting the standard for 21<sup>st</sup>-century living in Glasgow and beyond.

We look forward to seeing you on the Clyde!
